

Team Inventory

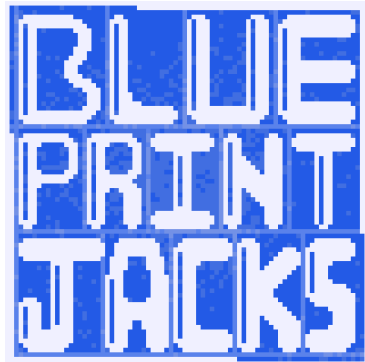

September 19, 2025

PROJECT SPONSOR

- ❖ **Chris Ortiz** - Senior Technologist, Tools & Infrastructure
- ❖ **Rex Jackson** - Vice President, Tools & Infrastructure

TEAM DETAILS

- ❖ Team Name: **Blueprint Jacks**
- ❖ Team's Faculty Mentor: **Ogonna Eli**
- ❖ Team Members: **Jackson Belzer, Christian Lamb, Juan José Serrano Mora, Alejandro Benito Marcos**

OVERVIEW

This team inventory document is made to introduce the team members of Blueprint Jacks. It contains each member's training, skills, and relevant experience which will provide an overview of our strengths as a team.

Alejandro Benito Marcos

Major: Computer Science, Senior

Hometown: Alicante, Spain

Education

- ❖ La Canal High School, 3.55 GPA
- ❖ University of Alicante
- ❖ (currently) Northern Arizona University
 - CS460: Computer Networks
 - SE450: Software Testing

Work Experience

- ❖ **Internship at Cloud Levante** (Feb 2025 - May 2025, Alicante, Spain): Contributed to cloud projects by setting up CI/CD pipelines, optimizing Docker containers, migrating applications to AWS, configuring cloud environments, and implementing backup and disaster recovery plans.

Skills

- ❖ **Programming, Frameworks & Tools:** Proficient in Python, Java, C++, Swift, SQL, PHP, .NET, REST APIs, Node.js, React, JavaScript, MySQL, Docker, Apache and Oracle, gained through coursework and internship.
- ❖ **Cloud Computing:** Experience designing and implementing scalable architectures, monitoring performance with AWS tools, and applying cloud-security best practices and cost-optimization strategies, gained during a 4-month internship.

Other Interests

In my free time outside programming, I like working out, hanging out with friends, traveling and playing video games.

Christian Lamb

Major: Computer Science, Senior

Hometown: Chandler, AZ

Education

- ❖ Perry High School, 3.6 GPA
- ❖ Northern Arizona University
 - CS249: Data Structures
 - CS345 Database Systems
 - CS480 Operating Systems

Work Experience

- ❖ No relevant work experience.

Skills

- ❖ **Programming, Frameworks & Tools:** Proficient in Java, C++, Python, SQL, HTML, CSS, JavaScript, and Git/GitHub. Strong background in algorithms, data structures (CS249), and systems programming (CS480). Experienced with relational database design, schema creation, and query optimization.
- ❖ **Web Development & Integration:** Built small-scale full-stack web applications with front-end and back-end integration, focusing on efficiency, reliability, and user experience.
- ❖ **Collaboration & Version Control:** Comfortable using GitHub for collaborative development, version control, and structured code management.

Other Interests

In my free time, I enjoy camping, hiking, video games, travel, and music.

Jackson Belzer

Major: Software Engineering, Senior

Hometown: Anthem, Arizona

Education

- ❖ Boulder Creek High School, 3.2 GPA
- ❖ Northern Arizona University, 3.83 GPA
 - CS 386 Software Engineering
 - CS 450 Parallel Programming
 - CS 460 Computer Networks

Work Experience

- ❖ No relevant work experience.

Skills

- ❖ **Programming, Frameworks & Tools:** Proficient in Python, C, C++, SQL, HTML, CSS, Git/GitHub. Strong aptitude for utilizing data structures and developing algorithms for solving novel problems, and using my experience and knowledge of techniques to approach problems effectively. Experience in working with relational databases, designing systems, and optimizing programs.
- ❖ **Program Optimization:** Through work in CS 450, one focus in the course was in profiling and optimizing programs, whether utilizing concurrency or not, and finding places that concurrency could be used, which could make programs execute quicker on systems with multiple cores.

Other Interests

On my own time, I like to spend time with friends, whether going out to events or playing board/card games, playing video games solo or with others, and working on my own solo projects, including creating art and animations.

Juan José Serrano

Major: CS (AI/ML Engineering), Senior

Hometown: Zaragoza, Spain

Education

- ❖ Corazonistas High School, 3.68 GPA
- ❖ University of Zaragoza
- ❖ (currently) Northern Arizona University
 - CS 470 Artificial Intelligence
 - CS 472 Unsupervised Machine Learning
 - CS 481 Compilers

Work Experience

- ❖ **Junior AI/ML Engineer** – Imascono. Zaragoza, Spain (Sept 2025 – Present): Built AI models and ML pipelines to optimize training and inference in production, as well as an API as an MCP server.
- ❖ **AI/ML Engineer Intern** – Imascono. Zaragoza, Spain (Jun 2025 – Aug 2025): Developed quantified fine tuning models using transformers, PEFT, QLoRA and ML/LLM documentation (+50k LOC, +100 Pages of doc) and development of an API that ran my AI models with context management.
- ❖ **DevOps Developer – Entertainment Solutions** – Zaragoza, Spain (Sep 2024 – Nov 2024): Improved PMS workflows for hospitality in Go and PHP.
- ❖ **Software Engineer Intern – Entertainment Solutions**. Zaragoza, Spain (Jun 2024 – Sep 2024): Features and fixes in Go in APIs for production and developed testing software for multiple communication protocols.

Skills

- ❖ **Technical Skills:** AI/ML, DevOps , sw engineering, and web development.
- ❖ **Other Skills:** Technical documentation, leadership, and teamwork.

Other Interests

Nature, sports, hanging out with friends, traveling and playing video games.
